MDF

➤ Capacity

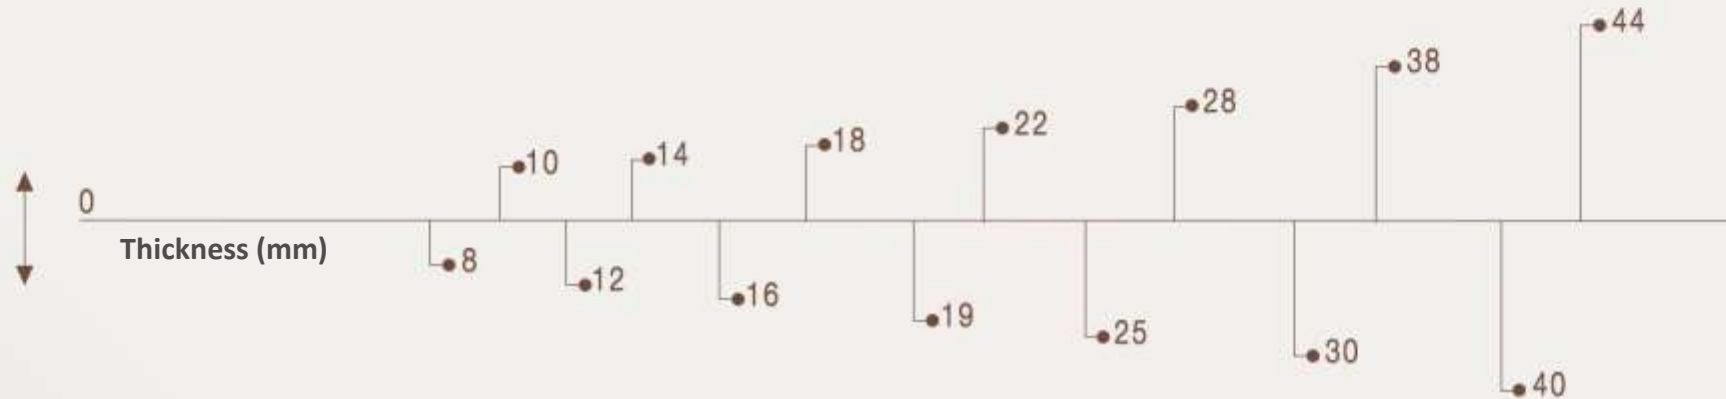

320

m³/day

➤ Plate size

➤ Equipment

MDF

➤ Physical and mechanical indicators of MDF

Bending strength, MPa – from 23 to 17

Swelling in thickness per 24 hours, %
– from 35 to 8

Density, kg/m³ – from 650 to 900

Humidity, % - from 4 to 11

➤ Faced MDF

«Shattdecor» (Russia)

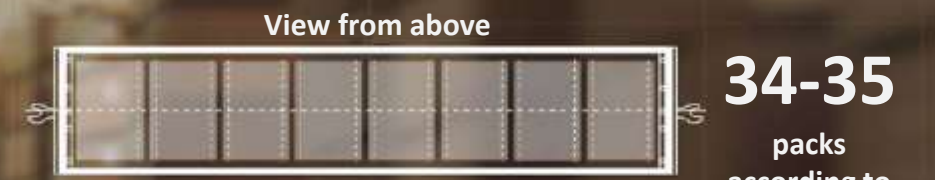

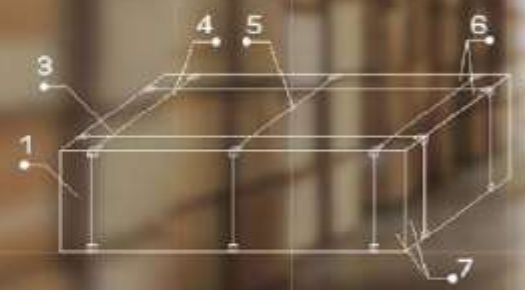

➤ Surface structure

- ✓ Shagreen
- ✓ Gloss
- ✓ Semi-Matt
- ✓ Wood pores

MDF PACKING RATE

➤ Designations:

- 1 – стопа плит
- 2 – bottom protective sheet
- 3 – top protective sheet
- 4 – polypropylene tape longitudinal belts
- 5 – polypropylene tape cross belts
- 6 – packing corners
- 7 – fiberboard lining

34-35
 packs
 according to
 carrying capacity of
 the wagon

11 packs
 (8 – 10 mm)
